

## Article wrapper

This is a para.

This is another para. See the space of separate between paragraphs. The following lists should have additional space before/after them, since they are not within paragraphs and thus should use paragraph spacing.

- some text (not compact)
- some text (not compact)
- some text (not compact)
- some text (not compact)
- some text (not compact)
- some text (not compact)
- some text (not compact)

1. some text (not compact)
2. some text (not compact)
3. some text (not compact)
4. some text (not compact)
5. some text (not compact)
6. some text (not compact)
7. some text (not compact)

- some text (compact)
- some text (compact)
- some text (compact)
- some text (compact)
- some text (compact)
- some text (compact)
- some text (compact)

1. some text (compact)
2. some text (compact)
3. some text (compact)
4. some text (compact)
5. some text (compact)

6. some text (compact)
7. some text (compact)

Here is a para.

The following two itemizedlists are within a block element and so should use paragraph spacing between them.

- some text (compact)
- some text (compact)
  
- some text (compact)
- some text (compact)
