

Unit Test: programlisting.004

Stéphane Bortzmeyer

Testing footnote within programlisting. Please try with footnotes as end notes, and footnotes at bottom of page (*bop-footnotes* in DSSSL).

```
hostname RTA
router ospf
  ospf router-id 192.134.7.241 [1]
  network 192.134.7.0/24 area 0
```

[1] It is not necessary to set the router ID.
